

Introduction to Networking.

After reading this module and completing the exercises, you should be able to:

- * **Distinguish between peer-to-peer and client-server networks.**
- * **Identify types of applications and protocols used on a network.**
- * **Describe various networking hardware devices and the most common physical topologies.**
- * **Describe the seven layers of the OSI model.**
- * **Explain best practices for safety when working with networks and computers.**
- * **Describe the seven-step troubleshooting model for troubleshooting network problems.**
